SPRINKLER METER USE

To receive credit for the use of a sprinkler meter, it must be purchased from the Village of Roscommon at the current price. The charge for sewer use will not be calculated on water passing through the sprinkler meter. Upon purchase, the owner will be solely responsible for maintenance, a backflow device, installation and storage of the meter. Only one sprinkler meter is allowed per account.

Meters must be installed in a location readily accessible to the Village for monthly readings. This location is to be on file in Village Hall and should not be changed without prior notification to the Village.

Sprinkler meters will be read at the end of each month with the regular meter reading. Failure to have the sprinkler meter in the location on file with the Village may result in not receiving the sewer credit for water passing through the sprinkler meter.

Meters will be read from the end of April through the end of October.
